

# ADVANCED WASTEWATER TREATMENT SOLUTIONS

## INDUSTRIAL WASTEWATER TREATMENT TECHNOLOGIES

A.T.E. HUBER Envirotech has developed cutting edge technologies for effective and economical treatment of complex industrial wastewater including zero liquid discharge.

**Technologies:**  
AAA® • AVR® • AHR • AVR-HDF® • AVR-S Disc®  
ASP-HDF® • ASP-S Disc® • SUFRO® • RDRO  
FBRO • Packaged Sewage Treatment

- Textiles
- Paper & Pulp
- Chemicals & petrochemicals
- Dairy
- Food & Beverages
- Pharmaceuticals
- Distillery

## MUNICIPAL WASTEWATER TREATMENT TECHNOLOGIES

A.T.E. brings you breakthrough technologies from Huber, Germany – the world's leading manufacturer of innovative wastewater treatment and sludge management equipment.

- Trashmax • Rakemax • Drum Screen
- (RO2/RPPS) • Vortex, Grit Washer (RoSF4)
- Grit Separator Vortex • Rotomat Ro5
- Liquid Screen • Thickener (S-Disc) • Q-Press • SRT • RO Disc

- Sludge2Energy
- Comprehensive sludge management
- Innovative primary/secondary treatment
- Advanced grit treatment
- Mechanised screening

## VALUE ADDED PRODUCTS AND SERVICES

Value added products and services for the smooth running of your effluent treatment plant

**Value added products:**  
BBE-1, BBE-2, BBM-1, BBM-2, Active anaerobic and aerobic bio cultures- BBC

**Value added services:**  
Wastewater experts on call, EnviroCOLA™

- EnviroCOLA™
- Wastewater Experts on Call
- Bio-enzymes
- Bio-cultures
- Bio-boosters
